OverDrive: Kobo Aura One, Aura H2O Edition 2, Aura Edition 2, Clara HD, Forma

From the Home screen, tap the *** icon in the upper-right corner.

Go to Settings > OverDrive.

Tap Get started.

Select Create account or Sign in to OverDrive.

Type St Albert Public Library on the Find a public library page. Tap the library’s name to sign in.

If prompted, sign in with your library card (starts with 22222) and PIN (last 4 digits of your phone number). Select Sign in to add your library card to your account.

Select Browse to start exploring Kobo’s catalog, or select Search to find a specific title.
Tap an eBook to open its details page, then tap the icon to borrow it or place it on hold (if owned by the library).

Borrowed eBooks will appear in the Books section of your Kobo Aura ONE, just like purchased eBooks. Library eBooks are automatically returned to your library at the end of the lending period, so you never have to worry about late fees.

Additional Features

In addition to borrowing eBooks from the Kobo Aura ONE, you can also:

- Filter the Kobo catalog so you only see eBooks that your library owns.
- Browse featured collections created by your library.
- Read OverDrive eBooks you’ve borrowed elsewhere (if they’re also available in the Kobo catalog).
- Use the Request again option (in the book actions menu). This will let you borrow the eBook again immediately after its lending period expires (if there are no existing holds), or place you on the title’s wait list (if there are existing holds).
- Return library eBooks early (before the end of the lending period).

Note: If you have downloaded the eBook to another app or device, you will not be able to return it from your Kobo. Instead, you may be able to return the eBook using the software you used to download it.
